THE SEED SITUATION

Red Clover prospects now good for big crop.

Timothy-Tall Fescues in much greater supply — note low prices.

Alfalfa — too early for new crop northern, but acreage is large — early frost could damage crop — Kansas very uncertain due to excessive rains — Okla. now in good supply.

Sweet Clover production larger. Canadian crop now indicated much over last year.

Hybrid Corn, Cool weather not favorable for production.

We are buyers and sellers of new crop seed.

Send samples of your offerings.

Enquire of us for your needs.
